SUBJECT: Adapting Outreach to Meet the Needs of the Growing Hispanic Population

IFIC has announced an outreach effort by developing a Spanish-language web site to provide sound, science based information on food safety, nutrition and health to the Hispanic community. To meet the informational needs of this growing population the Spanish-language web site <http://ific.org/sp> provides a wealth of free information on everything from child adolescent nutrition, to obesity and weight management, to food allergies and asthma, and everything in between.

Please see the attached PDF file for additional information.
